"The Curse"

Visit "[The Curse](#)" on MotoLyrics.com

I know what You're thinking. I can see through you brain
I know what You're doing, even though I'm far away

The power I get from the chain is mine
Only I can use it
The power I get from the chain is mine
Only I can use it

It was only yesterday, thunder rolling by, breaking up
the sky
And the rain was pouring down
Pounding on my brain, driving me insane
I was drinking wine again, oh yeah blame it on the wine

The curse of "The Eye", it will take you back in time
If you look at "The Eye", it will take you back in time
Guitar solo ANDY
The curse of "The Eye", it will take you back in time
If you look at "The Eye", it will take you back in time

I know what You're thinking. I can see through you brain
I know what You're doing, even though I'm far away
Guitar solo PETE
I know there's a bad side to the power of the chain
I know I'll be going back in time once again
Guitar solo PETE
It was only the 1st of May, thunder rolling by, breaking
up the sky
And the rain was pouring down
The inquisition came, I felt the pain
I had to relieve it all in just one day

The curse of "The Eye", it will take you back in time
If you look at "The Eye", it will take you back in time
Guitar solo PETE
The power I get from the chain is mine
Only I can use it
