My, how I miss
Your tender kiss
And the wonderful things you would do

I run my hands
Through silvery strands
'Cause I'm blue turning gray over you

You used to be
So good to me
That's when I was a novelty

Now you have new friends in view
Found someone new
Left me blue turning gray over you

You used to be
So good to me, yeah
That's when I was a novelty

Now you have new friends in view
Found someone new
Left me blue turning gray over you
Yes, I'm blue turning gray over you
