Don't mind the rain drops
Wait till the rain stops
Smile through your tears, laughing at liife
No road is lonely, if you will only
Lose all your blues laughing at life
Live for tomorrow, be happy today
Laugh all your sorrows away
Start now and cheer up
The skies will clear up
Lose all your blues laughing at life
Don't mind the rain drops
Wait till the rain stops
You'll find the sun laughing at life
No road is lonely, if you will only
Smile through your tears, laugh at life
Live for tomorrow, be happy today
Laugh all your sorrows away
Start now and cheer up
The skies will clear up
Lose all your blues laughing at life
