"Hearts Against The Wind"

Hearts that love where no love grows
Are gifts with no return
They know the coldest wind that blows
Where once a fire burned

Chorus

So blow...
Hearts against the wind
They just blow...
Hearts that ever break
They just won't mend
Without breaking again

Sow ye not the seeds of doubt
That fade and fall in time
For in the end your love will out
And every star outshine

Chorus

So blow...
Hearts against the wind
They just blow...
Hearts that ever break
They just won't mend
Without breaking again
