### **"My God Does"**

Visit "[My God Does](#)" on MotoLyrics.com

My God there I go again Keep messing up when I think I  
can run the world Once more out here at my wits end  
Feel like I'm lost again Tossed again I could use a  
friend (CHORUS) When am I gonna live When am I  
gonna learn When am I gonna finally figure it out  
Where I could turn To find sanity When everything goes  
crazy Where am I gonna go When I need some help  
Where am I gonna ever find The power to forgive  
myself When I don't have the love My God does I swear  
I've been here before Swearing I would never make The  
same mistake again Nowhere to go but up from here I  
guess I had a prayer All along you where there  
(CHORUS) When I don't Gives me the will when I just  
won't Gives me the power in the hour of my need  
(CHORUS)
