Blind and high still walking on through life
When it all falls down we just face it with switchblade
knife
And we didn't start the fire, we just fanned the flame
Stay away from our world, it'll drive you insane
Tonight, alright Baby lets go
Tonight, alright Let's start the show
And we waste our time In a city that's about to blow
We don't take prisoners, it's just rock n roll
Oh help me please, I'm feeling upside down
And I did too much, to keep my hold on solid ground
And we didn't start the fire, we just fanned the flame
Stay away from our world, it'll drive you insane
Tonight, alright Baby lets go
Tonight, alright Let's start the show
And we waste our time In a city that's about to blow
We don't take prisoners, it's just rock n roll
