I don't want to walk before I run
And as simple as I am
I can't even stand
Try to hold a conversation
And I'm lost before I start
Stealing the silences again
I don't wanna talk to anyone
These days I'm social on my own
Its more fun alone
I get more done at home
And I don't have to look real good
And now its ok to be rude
I think you are right
You and me are through
But its not that bad without you
Its not that bad without you
Its not that bad without you
Without you
I don't wanna wait for anyone
I think I'd rather walk alone
I don't know where I've gone
I try to hold onto a sense of direction
But I'm lost before I start
I can't find my way again
But its not that bad without you
Its not that bad without you
Its not that bad without you
Its not the only way to be
I only want you to understand
Its not the easy way
Maybe you and I have changed
And theres not much left to say
Its just the way I am
Its just the way I am
Its not the only way to be
I only want you to understand
Its not the easy way
Maybe you and I have changed
And theres not much left to say
Its just the way I am without you
its not that bad without you
its not that bad without you

its not that bad without you
