I'll stay away
Don't have to face this
It's my mistake
And noone's business
I am trying not to want to hurt him, trying not to start
this up again
He's in my way
And no surprises
It's been a day
Somehow I survived it

Still I'm trying not to want to hurt him, trying not to start
this up again
It's the last thing that I need right now
Someone to bring me down
I've got a rule I made up now, we moved out
No way, no boys aloud
There's a reason why I keep my distance
Don't think you're gunna understand
This is the last I need right now

No need to stay
My choice I made it
I keep away
Don't have to take it

Cuz I'm trying not to want to hurt him trying not to start
this up again
It's the last thing that I need right now
Someone to bring me down
I've got a rule I made up now, we moved out

No way, no boys aloud
There's a reason why I keep my distance
Don't think you're gunna understand
This is the last I need right now

Don't need a boyfriend
Not one like him
Don't wanna be the foolish girl I was, and in the births
again
You can say it's from me

Ill be keeping the way
I don't want to be the same foolish girl again
Ill stay away don't have to face this
It's my mistake and noone's business

I am trying not to want to hurt him, trying not to start
this up again
It's the last thing that I need right now
Someone to bring me down
I've got a rule I made up now, we moved out
No way, no boys aloud
There's a reason why I keep my distance
Don't think you're gunna understand
This is the last I need right now
