I used to walk between the shadows  
Lost in the world that move too fast  
I was afraid, I'd always be alone  
Then I saw your face at last

I found my way even in the dark  
Though at times it seem too far  
I knew if I'd listened to my heart  
I'd find that love is where you are

I close my eyes and see tomorrow  
My dreams begin and end with you  
I hear you say you'll be there  
Always for me there  
I must believe it's true

I found my way even in the dark  
Though at times it seem too far  
I knew if I'd listened to my heart  
I'd find that love is where you are

Love is where you are  
And anywhere you are  
It's where I want to be  
No matter what may happen  
No matter where I go  
Your arms are home to me

I found my way even in the dark  
Though at times it seem too far  
Somehow I knew even at first sight  
That love is anywhere you are  
Love is where you are  
That love is anywhere you are
