Never trust the stars when you're about to fall in love
Look for hidden signs before you start to sigh
Never trust the moon when you're about to taste his
kiss
He knows all the lines and he knows how to lie

Just wait for a night
When the skies are all bare and then if you still care

Never trust your dreams when you're about to fall in
love
For your dreams may quickly fall apart
So if you're smart, really smart
Only trust your heart

Just wait for a night
When the skies are all bare and then if you still care

Never trust your dreams when you're about to fall in
love
For your dreams may quickly fall apart
So if you're smart, really smart
Only trust your heart
Only trust your heart
