"A Wonderful Guest"

Now, now, the cycle is done,
a life has begun,
where a life was before.

Now, now, the seed has been sown,
the miracle shown,
to a woman once more.

How, how can it be,
such happiness happening to me.

Now, now, my life has been blessed,
how wonderful guest is with me,
I'll soon be the mother of your child.

How, how can it be,
such happiness happening to me.

Now, now, my life has been blessed,
how wonderful guest is with me,
I'll soon be the mother of your child.
