Animal stalking you at night  
I'm a sucker for someone  
And I got the prey in sight  
Lying on a bed of leaves  
In the modern times  
You forget and let your spirit breathe

Capture me my blood is red  
Another victim of your ritual  
For you my skin is shed  
Ecstasy ain't what you find  
In the modern world  
One flick of my tongue changes  
The meaning of the world  
And you say

That's impossible  
That's not impossible to do, oh  
And you digest what I can see  
The taste of you can be

I don't wanna get eaten alive  
'Cause you're so dangerous  
No more hearts I can trust, you see  
I don't wanna get eaten alive  
To be eaten alive  
Eaten alive  
I don't ever wanna be  
Eaten alive

Now I got you on the run  
And the quicker my senses  
And the chance is, I'm the faster one  
I know the universal law  
Primeval times  
With a little stimulation  
It'll come once more, and you say

That's impossible  
It's not impossible to do, oh  
And you digest what I can see  
The taste of you can be

I don't wanna get eaten alive  
'Cause you're so dangerous  
No more hearts I can trust  
You see  
I don't wanna get eaten alive  
To be eaten alive  
Eaten alive  
I don't ever wanna be  
Eaten alive

I don't wanna get eaten alive  
'Cause you're so dangerous  
No more hearts I can trust  
You see  
I don't wanna get eaten alive  
To be eaten alive  
Tie me to a tree, crawl all over me  
You can rip my shirt, drag me in the dirt  
I will be your slave, anything you say  
I don't ever wanna be eaten alive

I don't wanna get eaten alive  
'Cos you're so dangerous  
No more hearts I can trust, you see  
I don't wanna get eaten alive  
'Cos you're so dangerous  
No more hearts I can trust, you see  
I don't wanna get eaten alive  
'Cos you're dangerous  
No more hearts I can trust, you see  
I don't wanna get eaten alive  
To be eaten alive

Gotta do her, crawl all over me  
You can rip my shirt, drag me in the dirt  
I will be your slave, anything you say  
I don't ever wanna be, eaten alive
