Yeah, hey, I never thought I'd feel this way

(Al, don't play with me now)

Please, can you take the hurt away?

(Al)

My love for you is a bottomless well

For your tears and your fears

And I do love you

No matter what you do

I love you all the same

I said no matter what you do

I'll love you all the same

No matter what you do

I love you all the same

No matter what you do

I love you all the same

If we take our time I know you'll be mine

If we were to share our love would always be there

(No matter what you do)

If you decide to go then we will never know

But if, if you'll stay our love would find a way

(I love you)

No matter what you do

I'll love you all the same

I said, no matter what you do

I'll love you all the same

No matter what you do

I'll love you all the same

No matter what you do

I'll love you all the same

(Yeah, say it to me)

Do you love me? Let me know

Don't keep it inside, let it show

If you and I were meant to be

In your dreams you'd see the things that I see

(No matter what you do)

If you don't want me just tell me honestly  
(I want you)  
You know I can't take this pain  
So please hold me now and whisper my name  
(Diana)

Hold me, I just want you to hold me  
(Like this?)  
I love you  
(Yeah)

No matter what you do  
I'll love you all the same  
(I never thought I'd feel this way)  
I said, no matter what you do  
I'll love you all the same

No matter what you do  
I'll love you all the same  
No matter what you do  
I'll love you all the same

No matter what you do  
For evermore, for evermore, for evermore  
For evermore  
(I love you, I love you)

Ooh, baby, what we're doing  
Who we fooling?  
Let's stop hiding from the feelings  
That we feel inside, yeah  
No, no, no, no

I never thought I'd feel this way  
I just want you to hold me  
Alright, you've got to stop playing with me now

If you're serious there's no more fooling around  
(Okay)  
No hiding  
(No more hiding)  
Just show your feelings  
(I wanna spend the rest of my life with you)

God bless the day that you came  
No matter
