Since the beginning of all life's beginnings
Right at the very dawning of the sun
Any and everyone had cause and reason
For in good all good is done

Now down in every heart there are two forces
One is for the wrong, one's for the right
But never do you have to fear with this as armor
For good always wins the fight

What's that force behind the power that wakes you
each day
What's that force behind the power that chases evil
away
What's that force behind the power that puts a smile on
your face
It is love, pure love, it is love

In every book of truth it has been written
That we are measured by the things we do
If for the good of all is what you like doing
Then all that good will come to you

That doesn't mean you have to be a rich man
You could be a person living on the street
But if you give but only words to lift someone higher
Then a heart of gold is what you will be

What's that force behind the power that wakes you
each day
What's that force behind the power that chases evil
away
What's that force behind the power that puts a smile on
your face
It is love, pure love, it is love

What's that force behind the power that makes you
willing to share
What's that force behind the power that for a lost soul
you're there
What's that force behind the power that's not to busy to
care

It is love, pure love, it is love

Not trying to preach about it, but no one can do without
it

What's that force behind the power that will lend a
hand

What's that force behind the power when others can't
yes you can

What's that force behind the power it's greater than
any man

It is love, God's love, it is love

What's that force behind the power that tears walls
down of hate

What's that force behind the power that is never too
late

What's that force behind the power that forever will
wait

It is love, God's love, it is love
