(Chorus)

Every once in a while I think of you. Where you are right now? What you're going through? And if you're out tonight whatcha gonna do? Cause every once in a while I think of you.

You left me that winter the snow closed the roads. Just like your heart was shut down cause it was too damn cold to love.

(Chorus)

Yet every once in a while I think of you. Where you are right now? What you're going through? And if you're out tonight whatcha gonna do? Cause every once in a while I think of you.

It wasn't meant to work out we would come to know. Your heart became the cold winds driftin' over snow on me.

(Chorus)

You didn't want the best for that's true. I doubt you got the best of things for you.

(Chorus)
