When I lost direction, and didn't know where to go  
When love was evasive it had no way to grow  
I asked God for some answers, and kept him close to  
me  
I knew, I was needin' heaven in my arms

When God showed me heaven, he didn't lift me up  
Above the clouds and stars, the way that we think of  
He used the wings of an angel protecting me from  
harm  
I knew, I was holdin' heaven in my arms

I'm holding heaven in my arms  
Every time I'm holding you  
I feel the gift of love, when I'm alone with you  
And everything's alright, when I'm holding heaven in  
my arms

You may think you aren't angel, but you really are to  
me  
I still thank God for showing the way for me to be  
And that he used an angel, protecting me from harm  
I know, I'm holding heading heaven in my arms
