Well I rolled back the top on a hot summer day
Put the car in drive and I pulled away
I remembered this place that we used to go
Just to pass the time away
Well it was south of the city past the Walmart store
Out on the backroads my foot to the floor
Gonna push this baby, wanna get there fast
So I can take it slow down at the Make It Last

Chorus:

Where Betty met Billy and Billy met Sue
You met me, and honey I met you
Well something's change and some things pass
But it's still the same
Down at the Make It Last

Well there's Catfish Joe and his Creole band
Voodoo Daddy, he's their biggest fan
He just sits by the fire with his drink in hand
Talking 'bout the old days
And old Whiskey Will, he's served the best
If you can drink his shine then you've passed the test
You can fly from the east coast, to the west
And never even leave the room

Chorus:

Where Betty met Billy and Billy met Sue
You met me, and honey I met you
Well something's change and some things pass
But it's still the same
Down at the Make It Last

Get me there right now, take me away
I ain't gonna slow down,
So get out of my way, yay-yay
Get out of my way

I rolled back the top on a hot summer day
Put the car in drive and I pulled away

Step on up and into the past

Peer on in through the looking glass
Cause some things change a little too fast
But it's still the same down at the Make It Last
