Day and Night

All of the day all of the night
You do the things
That make me feel so right
My shining star my shining light
And that's the day and night babe

It just ain't the same
When you're away
You are my inspiration
I'm hanging on
To every word you say
Cos you are my motivation

You make me feel so right
Everyday and night...Cos

The only time I think of you
Is every day and all night through
Whenever I breathe
You're on my mind
Every day and night babe

All of the day all of the night
You do the things
That make me feel so right
My shining star my shining light
And that's the day and night babe

I need you tonight
But you're not around
I need to hear your voice babe
Sometimes feels strange
There's not a single sound
I wish you were at my door babe

You make me feel so right
Everyday and night...Cos

The only time I think of you
Is every day and all night through

Whenever I breathe
You're on my mind
Every day and night babe

All of the day all of the night
You do the things
That make me feel so right
My shining star my shining light
Day and night babe

Gotta let me know oh yeh
When you're coming home
You know
You make me feel so right
Every day and night

Cos.. The only time I think of you
Is every day and all night through
Whenever I breathe
You're on my mind
Every day and night babe

All of the day all of the night
You do the things
That make me feel so right
My shining star my shining light
Day and night babe
