Ring my bell
Ring my bell

Wonder could it be
Could it be for me
That's the sound I've been waiting for

Any time of day
He can come my way
When I open the door I know that
All is well
Everytime I hear that bell
I can tell

Someone's at the door
I know who it is
Someone's back for more
I know who
By the way he rings my bell
I can always tell
Who is at my door
Ring my bell
Ring my bell

Everywhere I go
I always need to know
If you're waiting outside for me
Baby

So I hurry home
Really hurry home
When I open the door
I know that all is well
Everytime I hear that bell
I can tell

Someone's at the door
I know who it is
Someone's back for more
I know who
By the way he rings my bell
I can always tell

Who is at my door
Ring my bell
Ring my bell

So I'm waiting at that door
Wonder where he's been
Can't stand it no more
When I let him in
If he comes inside
I'll do everything
I've got on my mind

Someone's at the door
I know who it is
Someone's back for more
I know who
By the way he rings my bell
I can always tell
Who is at my door
Ring my bell
Ring my bell

Someone's at the door
I know who it is
Someone's back for more
I know who
By the way he rings my bell
I can always tell
Who is at my door
Ring my bell
Ring my bell

Someone's at the door
I know who it is
Someone's back for more
I know who
By the way he rings my bell
I can always tell
Who is at my door
