Girl you know he don't like me very much as it is  
And if your daddy knew I was here now this could be  
my very last kiss  
But he'll be in the shower at least a half an hour oh  
baby  
I won't miss your hair I promise I swear now baby  
All I wanna do is love you till the water stops running  
Darling won't you let me hold you till we hear your  
daddy coming  
Can't you see we're safe now as long as he keeps  
humming  
Oh but we gotta stop girl when the water stops running  
[ fiddle ]  
He's just singing and splashing I care he almost done  
But making love when there's danger it's making love  
much more fun  
Yes girl I know but don't let go now baby just kiss my  
lips as water drips now baby  
All I wanna do is love you...  
When the water stops running when the water stops
