This bird so crippled - little bird  
Just wants to learn to fly - Longing for the sky  
Tell me fellow - sufferer - Tear apart my fate  
Who broke them and why - Just another try  
Tar-stained feathers - broken wings  
Preachers rise your hands - Like shattered pride  
Now life can be damn boring - Hunted, wanted  
With your eyes raised to the sky-dancing-wild  
Sophistication - Heaven , sky  
Sophistication - Tell me why ?  
Sophistication - Heaven, sky  
Sophistication - No wings to fly  
Circles, vicious circles - Faith and fate  
As the wind denies my wish - Belief and doubts  
How can you leave me here ? - Struggling helpless  
I'm missing what's still there - Between the clouds  
Broken wings - Heaven , sky  
With remains of reflexes - Attempt, temptations  
Trying to lift me up - Helpless cries  
Far beyond the clouds - And falling nations
