IOU this.
In-cest!, my kingdom is krank
PrisonER mesh, slash my flesh
This is my privacy, God,
Within a childish disguise
If I AM-OK surprise!
Dead end dreams end
Now and here
I.D.-Fic(a)tion in fear
Faithful and clear
I sit in front of you, near!
I feel your breath on my skin
Like I am living within
Try, understand how I feel
When you are ready to heal
Then touch my lips with your eyes
To kill this ugly disguise
Did I fulfill every praise
For I am one of this race
Have I not told you in time
That you comitted a crime?
To say that I have to stay
Has even scared me away
And now I look at my hands,
This is my personal trance!
Believe the synchronised thought
In-cubus. Land(lord) of Nod
Down-vein the gemini dead
In this unbearable heat
