Dead, my angel  
I'm cry for you, my dear  
Embers tears of wistful candle  
Glow into the dark

[Chorus:]  
Desperate cry  
Of candle  
Desperate cry  
Of tragedy

Sad, my angel  
To you is dedicated, requiem  
Withered beauty around me  
Withered beauty

#### 4. Come Back

We are together with you far long time  
We loved each other so much  
You present me so many days  
But why will I live without you

[Chorus:]  
Come bad to me I ask you  
Come bach to me my love  
I do want to be close to you  
And I will come to you my angel wait for me

No I'm lonely all over the world  
And I'm crying all the time  
You did I don't know how to live without you  
So the end of my life will be the river, deep river
