You left our favorite song playin' on the radio,
Way to go - that's shootin' low.
Your lyin' love letters keep on turnin' up,
I'm gonna burn 'em up, in our lovin' cup.

(Chorus:)

If you're gonna get gone, get a little goner,
If you're gonna move along, move a little bit longer,
You think I want you back, well, you couldn't be
wronger,
Go on, get a little goner.

Well, you left me for good just a week ago,
And the way I know - is you told me so.
But when it comes to leavin' well enough alone,
You've never shown, that you've ever known.

(Repeat Chorus (variations))

(So) If you're gonna get gone, get a little goner,
If you're gonna move along, move a little bit longer,
(If) You think I want you back, (well) you couldn't be
wronger,
Go on, get a little goner.

(Bridge - instrumentals)

You snuck back into my dreams, where you don't
belong.
Then you came on strong - now, you know that's wrong.
I turned to walk away, but I ran into you -
That'll never do, if we're really through!

(Repeat Chorus)

(Repeat Chorus)

So if you're gonna move along, and you're gonna get
gone,
So long!
Get a little goner!
