Once I was your  
One and only, oh yeah  
Then one day like the wind  
You began to change

You told me to go away, to go away  
And now I'm so lonely without you  
Oh, tell me, where did all  
The good times go

No more party lights for you and me  
No more walks in the dark  
To the movie show

Last night, I saw you, I saw you  
Saw you kiss another, yes, I did  
Oh, tell me, where did all  
The good times go

Last night, I saw you, I saw you  
Saw you kiss another, yes, I did  
Oh, tell me, where did all  
The good times go

Guess I'll call you  
For the last time forever  
Cause there's something  
Something I just gotta know

Please excuse me, excuse me  
Excuse me for this intrusion  
Oh, darling  
But tell me, where did all  
The good times go

You know, you know, you know  
I'm gonna make you over  
And you know, you know, you know  
I won't be happy without you, baby  
But I gotta know...
