sometimes it is nothing but a sad and soor child sying  
sometimes it is nothing but a bomb  
sometimes it is nothing but low clouds slowly passing  
by  
sometimes it is nothing but no light

I'm a today-one and a tomorrow too  
where did I put my gun in a dead issue  
I'm a nowhere non a priest whithout true  
where do I find my fun it is to know you  
it is to know you  
it is to know you

boys all around travelling bound sailors of the first  
hour  
beating and rambling midnight gambling bold world of  
your birth  
striking along fighting along has no sense alone  
but a seat or a saddle for a rebel are just restworth

I'm a today-one and a tomorrow too  
where did I put my gun in a dead issue  
I'm a nowhere non a priest whithout true  
where do I find my fun it is to know you  
it is to know you  
it is to know you

while I'm not dead  
I'll be ehead  
while I'me alive  
I'll have my pride

I'm a today-one and a tomorrow too  
where did I put my gun in a dead issue  
I'm a nowhere non a priest whithout true  
where do I find my fun it is to know you  
it is to know you
