"Till Your Memory's Gone"

Visit "[Till Your Memory's Gone](#)" on MotoLyrics.com

When I Close my eyes, I can barely see you
If I am alone, it won't be for long.

I'm thinking of the time, we once spent together
But Pieces of my life won't fit together right
Till your memory's gone

Memories have a way of keeping wounds from healing
And bringing back the bad, cuts me, cuts me to the
bone

If I had one day, that I don't think about her
Maybe things would change
But they'll just be the same, till your memory's gone

Till your memory's gone, love will linger on
Standing in my way, till your memory fades

When I Close my eyes, I can barely see you
I cant leave behind these pictures in my mind till your
memories gone
Oh baby
I cant leave behind pictures in my mind till your
memory's gone.
