(CHORUS)

I love you so
I can't let you go
I must make you see
You mean more to me
Than each beat of my heart
For I can't live without your love

All of my life
I have dreamed of a love
And the way I wanted it to be

But now that I've found you
My heart's so afraid that
Somehow you won't care for me
(That's all, that's the reason)

(CHORUS)

I've offered my love
And a dream to fulfill
Pledge me your love in return
Just say that you love me
And you always will
This flame will forever burn
(That's all, that's the reason)

(CHORUS)
