This is a place i have never known before  
It's called easy livin'  
This is a place i've never seen before  
And i've been forgiven

Easy livin' and i've been forgiven  
Since you've taken your place in my heart

Somewhere along the lonely road  
I have tried to find you  
Day after day on that windy road  
I have walked behind you

Easy livin' and i've been forgiven  
Since you've taken your place in my heart

Easy livin'  
Wishing my whole life away  
Easy live'  
Ready for my happy day  
And some easy livin'
