You're so hideous
You're not one of us
I really pity you
And i don't want you

It's so hard to face you're face
Every time i look at you i feel disgrace
I don't want to find you in my place
You are just a basket case

It's so hard to face you're face
Every time i look at you i feel disgraced
I don't want to find you in my place
You shouldn't belong to the human race

You're so hideous
You're not one of us
I really pity you
And i don't want to know you
