In the beginning since the dawn of man  
In forest green and in desert sands  
The yearning of humanity  
To know that god is a reality  
Is there a heaven is there a hell  
Where angels sing and demons dwell  
To know all this i used to think was wise  
But then magoomba opened my eyes

Magoomba magoomba  
Voodoo god of africa  
Magoomba  
Magoomba magoomba  
Voodoo god of africa  
Magoomba

Holy holy be his terrible name  
Utter it once and go up in flames  
Adorn his crown with butterflies  
Ayin the sign of the opened eye  
The words of madness and mystery  
The very power that he brings to me  
I rave i rape i rip i rend  
Is everlasting world without end

Magoomba rides upon the whirlwinds  
Spawn from nature's ancient dream  
He moves uopn the world of mankind  
Like the siren's scream

Does he like buddha or jesus christ  
Can he promise you a paradise  
Does he bring light like lucifer  
Bestowing power by the rite of birth  
The day of cross and trinity  
Is done the twilight of the gods has come  
It is the morning of magic and mirth  
Magoomba lives upon the earth

Leonard, i'm home  
I've got some ho-hos and yoo-hoo for ya

And that special hamburger helper you like  
Mother, for crimes against magoomba you are to be  
tried  
What are you talking about leonard  
Come over here and sit down and have your lunch  
Silence! for kissing me on holidays and social  
occasions  
For making me mow the lawn  
And for forcing me to eat your cooking  
You shall feel the wrath of magoomba!  
Now what do you want with your lunch milk or pepsi?  
Tie her to the altar  
Leonard what are they doing oh my god  
Prepare the sacrifice  
Stop that leave me alone  
Get your hands off me
