"After The Storm"

Visit "[After The Storm](#)" on MotoLyrics.com

Look for me on the mountain
Cry to me on the wind
Call for me in the canyon
You will find me again

Come to me with your sorrow
Come to me with your pain
I have seen your tomorrow
But tonight brings the rain

After the storm is over
And the rains come and gone
After the storm is over
I was there all along
I was there all along

Reach for me when you're broken
When the journey's too long
And all your worries unspoken
In your weakness I am strong

Call to me from the darkness
Turn to me when you thirst
Come to me when you're homeless
Then the last will be first

After the storm is over
And the rains come and gone
After the storm is over
I was there all along
I was there all along
I was there all along

All along, all along, all along
All along, all along
