On Saturday night when our work is done  
We load our music up on the run  
Heavy traffic ahead, heavy traffic ahead  
We got to ramble ramble there's heavy traffic ahead  
We pull out of Nashville right on time  
The Blue Grass special heads down the line  
We traveled around from state to state  
The Bluegrass boys are never late  
Late in the evening about sundown  
You know we've come from some other town  
We do our work with a good will  
On Friday night we head for Nashville
