Our darling wandered far away while she was out at
play
Lost in the woods she couldn't hear a sound
She was our darling girl the sweetest thing in all the
world
We searched for her but she couldn't be found
I heard the screams of our little girl far away
Hurry Daddy there's an awful dreadful snake
I ran as fast as I could through the dark and dreary
woods
But I reached our darling girl too late
Oh I began to cry I knew that soon she'd have to die
For the snake was warning me close by
I held her close to my face she said daddy kill that
snake
It's getting dark tell mommy goodbye
To all parents I must say don't let your children stray
away
They need your love to guide them along
Oh God I pray we'll see our darling girl some day
It seems we still can hear her voice around our home
