"Never Too Far"

No matter where you are, you're not too far from Me
No matter where you are, you're not too far from Me
Never too far, out on the prairie
Never too far, out on the plains
Never too far, under a red sky
Never too far, out in the rain.

No matter what you feel, you're not too far from Me.
No matter what you feel, you're not too far from Me
Never too far, when you are desperate
Never too far, when you're alone
Never too far, when they are deceitful
Never too far, when you're so far from home

No matter where you are, you're not too far from Me

If you're a stone, I am the mountain
If you're a bird, I am the tree
If you're a flower, I am the field
If you're a boat, I am the sea

No matter where you are, you're not too far from Me...
