George Alexander)

Find yourself on an elevator going high
Find yourself on an elevator headed for the sky
Let the world pass you by
Going up

Find yourself on an elevator going high
Find yourself on an elevator headed for the sky
Let your mind start to cry
Let it go

Let it go
Where it wants to wander freely
Let it go
See your troubles on the ground
Tumblin' down

Find yourself on an elevator going high

Tra la la la la la
Let it go
See your troubles on the ground
Tumblin' down

Find yourself on an elevator going high
Find yourself on an elevator headed for the sky
Let the world pass you by
Going up
Find yourself on an elevator going high
High
