I did it, you didn't mean to do it, no, I didn't  
Then why'd you say, you did it but I didn't  
You just told me you did it, no, I didn't

I did it, you didn't mean to do it, no, I didn't  
Then why'd you say, you did it but I didn't  
You just told me you did it, no, I didn't

You started it, you started it, no, I didn't  
You started it, you started it

I did it, you didn't mean to do it, no, I didn't  
Then why'd you say, you did it but I didn't  
You just told me you did it, no, I didn't

I did it, you didn't mean to do it, no, I didn't  
Then why'd you say, you did it but I didn't  
You just told me you did it, no, I didn't

You started it, you started it, no, I didn't  
You started it, you started it

Don't make me come back there 'cause I'm warning  
you  
That I will do what I have to do

You started it, you started it, no, I didn't  
You started it, you started it

Don't make me come back there 'cause I'm warning  
you  
That I will do what I have to do

I did it, you didn't mean to do it, no, I didn't  
Then why'd you say, you did it but I didn't  
You just told me you did it, no, I didn't

You started it, you started it, no, I didn't  
You started it, you started it
