The first thing I did wrong  
Was hook up with a girl that wasn't grown  
She looked like a woman but her mind worked like a child  
For 'cause of her girlish qualities that made me smile  
The outside never showed me what was in  
And her ending didn't look like it began  
Now I know and it's for sure  
That you can't change a girl into a woman, yeah

And I'm okay, make sure, you're okay  
No matter how long it takes  
Make sure that you're okay  
And if she goes away  
Make sure that you're okay  
Now that I got out, I'm just lookin' out  
Trying to show you the way  
To be okay

I hate to see you make the same mistakes  
So avoid the things that 'cause your heart to break  
From a hurting brother, I ain't trying to hate  
But if you mess around with her, she'll seal your fate  
You'll never see it coming till it's there  
And you'll find out that she doesn't really care  
And it's real, what I feel  
You can have her ass, I don't want her over here

I'm okay, make sure, you're okay  
No matter how long it takes  
You better make sure, you're okay  
And if she goes away  
Make sure you're okay  
Now that I got out, I'm just lookin' out  
Trying to show you the way  
To be okay

If you decide to stay it's alright  
But take heed to what I say you'll be alright  
If you decide to go then go now  
Don't look back because she'll only bring you down  
Oh, bring you down

Bring you down

Sing it one time

Okay

Make sure, you'll be okay

It's okay, okay

Make sure, you'll be okay

It's okay, okay

Make sure, you'll be okay

Not that I get out, I'm just lookin' out

Oh, okay

I'm okay, make sure, you're okay

No matter how long it takes

You better make sure, you're okay

And if she goes away

Make sure that you're okay

Now that I got out, I'm just lookin' out

Trying to show you the way

To be okay

I don't know

Soon as I'm recognized

I'm okay, make sure, you're okay

How long it takes

Make sure that you're okay

And if she goes away

Make sure that you're okay

Now that I got out, I'm just lookin' out

Trying to show you the way

To be okay

Okay, okay

Gonna make sure
