[Diddy - rap verse]

London, Paris, where we goin next?

Shit~! I don't know, what planet would you suggest?

(Don't stop)

Wherever we go you just bring a little dress

And I'll just take care o'all the rest (Let's go)

I feel like affection, I'm givin you my best

I'm underestimated as the greatest one left

So if you ready to fly, better take a deep breath

I put you in the sky and take yo' heart up outcha chest

Now you got me goin in... -- (in-sane)

We can sit under the sun until your skin change

Now whatchu REALLY know about ownin a big plane?

Landin on the Autobahn's, come with champagne

Ain't that a damn shame? C'mon

[Bridge - Kaleena]

I want a feeling I can feel

I want a love, I know, is real
