I'll leave you now if you don't want me  
I'll leave you anytime you say  
But when I'm gone, no more to see you  
You won't be satisfied that way

I tried to tell you how I loved you  
And I tried to prove it night and day  
But when I'm gone, no more to see you  
You won't be satisfied that way

I'll leave you now if you don't want me  
I'll leave you anytime you say  
But when I'm gone, no more to see you  
You won't be satisfied that way

I tried to tell you how I loved you  
And I tried to prove it night and day  
But when I'm gone, no more to see you  
You won't be satisfied that way  
You won't be satisfied that way
