You go to work and you come
You sit around every day
You got a lotta, lotta
(la la la la la...)
And you're headless
You're just so headless
You go to work and you come
You sit around every day
You got a lotta, lotta
(la la la la la...)
And you're headless
You're so damn headless
I see my dog and he comes through my window

He's walkin' into the fire
You go to work and you come
You sit around every day
You got a lotta, lotta
Jackin' down the street on my funky three
Tell me why there's people bigger than me
Six foot yesterday, now I'm five foot three
'Cause I'm headless
