If you're feeling low and lost today  
You're probably doing too much again  
You spend all your hours just rushing around  
Do you have a little time  
Do you have a little time for me?  
Slow down my love you're confusing me  
If you're feeling stressed just try calling  
You spend your time waiting for anyone to see  
Do you have a little time  
Do you have a little time for me?  
If you should stop for a while  
You will find me standing by  
Over here at the side of your life  
I'd like to hold you still, remind you of all you've missed  
If you have a little time  
If you have a little time that is

Why do you still run when you could walk with me  
Life will pass you by when you move as quickly  
What can you see when you're spinning around  
Do you have a little time  
Do you have a little time for me

If you should stop for a while  
You will find me standing by  
Over here at the side of your life  
I like to hold you still, remind you of all you've missed  
If you have a little time  
If you have a little time that is

If you let me listen I'll make you feel clear  
You spend your time waiting for anyone to see  
If you should stop for a while  
You will find me standing by  
Over here at the side of your life  
I'd like to hold you still, remind you of all you've missed  
If you have a little time  
If you have a little time that is  
If you should stop for a while  
You will find me standing by  
Over here at the side of your life  
I'd like to hold you still, remind you of all you've missed

If you have a little time  
If you have a little time that is
