Close to me
Said I want you close to me
I believe
I can bring you happiness

Get close to me
Get closer to the feelin'
Let's get down
And let the feelin' do the rest

Come [Close To Me](#), [Close To Me](#) close to me
Anyway you want to
Let's let it be
What makes you feel the best

Feelin' high on love and full of energy
And I want you close to me
Said I want you close to me

Come [Close To Me](#), [Close To Me](#) close to me
Anyway you want to
Get close to me
Come and take what you can get

Come [Close To Me](#), [Close To Me](#) close to me
A little closer to the feelin'
Get close to me
And make me shake and sweat

Feelin' high on love and full of energy
And I want you close to me
Come [Close To Me](#), [Close To Me](#) close to me
Close to me
