La, la, la  
La, la

I only want to love you  
Please don't push me away  
Let me in your life

I wasn't even there when he hurt you  
So why should I have to pay  
Let me in your life

I want to share your tomorrows  
So I must beg you today  
If he's the cause of your sorrows  
Be glad that he's gone away

I need someone, let me love you  
Please don't push me away  
Let me in your life

La, la, la  
La, la  
La, la, la  
La, la
