Gettin it on
Brooklyn we back
Ghetto Fab, uh
Uh, like that I got on I got on
Like that I got on I got on
Like that I got on I got on
Like that I got on I got on

[Fabolous]

From the rock to the trees (we be like this)
From the blocks to the peas (she treats me like this)
From the cock to the squeeze (keep me like this)
Ghetto F-A-B (keep it like this)
From the rock to the trees (we be like this)
From the blocks to the peas (she treats me like this)
From the cock to the squeeze (keep me like this)
Ghetto F-A-B (keep it like this)

I'm a ordinary gent in a strawberry ?
Air Force Ones check out the real ? print
It's the kid, who do you fuck with us
Just stop style unless Gucci make bulletproof buckets
Cheap family ? and kisses on the cheek
And why the D-A and seen the whip listen to the week
Ghetto, gotta admire a man on this
Apply work, retirement plan on her wrist
Niggaz don't like that I got on I sees it yet
If I'm Bin Laden then the mics that I got on
I used to love apartments ? in the lease
In many mansion I feel like I'm in a glove compartment
I'm far from jealous but you ain't smokin good
It's what you buy don't look a jar of ?
I'm the reason you're tellin it's no problem ridin up
Puttin a few of these in the melon
While freezin and yellin, ghetto, yeah

Yeah, ay yo never get caught holdin a gram
Never take a bitch word over your man
Stay close to em, never let em know where you live
Never let em get familiar wit your doe or your kids
Put the toast to em, always stay quiet humble
But don't be scared to take it to the knife or the gun in
the rumble
I could show you how to get your neck broke
Stretch coat in the middle of the ocean on the Mindu
Plex boat
Look here there is no competitor
See now with the space ship doors that open up regular
Get it on with the hard plastic
My sixteens have niggaz feelin like they trippin off acid
Trust me I can't see em lost
And know that if you wack me you can't be a boss
Ride or die, cry or lie, get your hustle on
Hold the block down for life, truly yours

Keep it like this
Keep it like this
We be like this
She treats me like this
Keep me like this
Keep it like this
