Hey Ho! Let's go! This is my violent show!
Hey Ho! Let's go! I give my fears a blow!
Hey Ho!
Hey Ho!
Hey Ho! Let's go! I give my fears a blow!

Come on, Hey Ho!
Hey Ho!
Hey Ho! I give my fears a blow!

Should I wait? Should I suffer? It hurts way too long.
Cannot forgive you anymore, the pain is slowly killing
me.

The glass is broken and I will fly far, far away.
To a mountain you'll never know, I will be free.

I've spread myself, I will fly, I will be free.

I spread my wings and breath the air, I will be free.
