I saw you jump up
You and your friends, baby
And I heard you say they're playing a jam
(there's a jam right here baby)
So waving your hand
From side to side, sugar
Hear you're claiming you're a certified man
(certified)
I know it might sound strange
But I pictured us alone
And you're kissing me in ways I can't tell - no
If my thoughts of you are true
Then I wanna get with you
So I'll step in while I'm given the chance yeah

Do you have a girlfriend? Do you have a girlfriend?
You're looking real cool You're looking real cool
Can I have you're number? Can I have you're number?
You don't have a thing to lose.
Do you have a minute? Do you have a minute?
What is on your mind? What is on your mind?
I was just thinking I was just thinking
We can spend some time

Heard a slow song
You don't waste time baby
And you asked me if I wanted to dance?
(sure I wanna dance)
Playing hard to get
Takes to long, sugar
So I told my friends that I found a man
(you're the one)

I know it might sound strange
But I pictured us alone
And you're kissing me in ways I can't tell - no
If my thoughts of you are true
Then I wanna get with you
So I'll step in while I'm given the chance

Do you have a girlfriend? Do you have a girlfriend?

You're looking real cool You're looking real cool
Can I have you're number? Can I have you're number?
You don't have a thing to lose.
Do you have a minute? Do you have a minute?
What is on your mind? What is on your mind?
I was just thinking I was just thinking
We can spend some time

Do ya do ya do ya have a girlfriend?
You're looking real cool
Do ya do ya do ya have a minute?
I was just thinking
Do you do you do you have a girlfriend?
We could spend some time
Do you do you do you have a minute?
Are you all alone? A-ha A-ha

I know it might sound strange
But I pictured us alone
And you're kissing me in ways I can't tell - no
If my thoughts of you are true
Then I wanna get with you
So I'll step in while I'm given the chance

Do you have a girlfriend? Do you have a girlfriend?
You're looking real cool You're looking real cool
Can I have you're number? Can I have you're number?
You don't have a thing to lose.
Do you have a minute? Do you have a minute?
What is on your mind? What is on your mind?
I was just thinking I was just thinking
We can spend some time

Do you have a girlfriend? Do you have a girlfriend?
You're looking real cool You're looking real cool
Can I have you're number? Can I have you're number?
You don't have a thing to lose
Do you have a minute? Do you have a minute?
What is on your mind? What is on your mind?
I was just thinking I was just thinking
We can spend some time
