She is walking down the street,
Oh, my god, she is so sweet!
Can you really trust your eyes,
Milk and honey, milk and honey!

She's got those supermodel legs,
She'd be the bacon on your eggs!
There's nothing you want more than to
Spend your money, throw your money!

Away! Away! She'll stay!
As long as you want to pay!

She's gorgeous!
She's the genuine venus!
Just like a "back to life" Marilyn!
And you know you'd do
Anything, anything!

She comes to you and says: "Hello!
Don't I know you from before?
Do you wanna take me home?"
She wants your money, wants your money!

Look at her pearl necklace teeth,
A warning you don't wanna see.
Is she directly from hell?
She wants your money, take your money!

Away! Away! She'll stay!
As long as you want to pay!

She's gorgeous!
She's the genuine venus!
Just like a "back to life" Marilyn!
And you know you'd do

Anything, anything!

You're a star and she is you satellite!
You're the men and she's your shining light!
Leks a diamond in the sky!

Come on! Come on! Come on!
Come on! Come on! Come on!
Come on! Come on! Come on!
Let's dance!

Come on! Come on! Come on!
Come on! Come on! Come on!
Come on! Come on! Come on!
Angle face!

She's gorgeous!
She's the genuine venus!
Just like a "back to life" Marilyn!
And you know you'd do
Anything, anything!

She's gorgeous!
She's the genuine venus!
Just like a "back to life" Marilyn!
And you know you'd do
Anything, anything!

You're a star and she is you satellite!
You're the men and she's your shining light!
Leks a diamond in the sky!
