Goodbye to the darkness...
...Goodbye to lies.
I'm gone for tomorrow...
So sick and tired.
Goodbye my wannabe-friends,
I see you through.
You better save your energy,
No... miss -- use...
Cause now I'm leaving...
Just don't know when.

Help me, help me, help me, help me
Catch my life!
Take me, take me, take me
To the other side...
Ready, steady, go...
(I'm running.)
It's unbelievable...
I'm going home!

Day one of my new life...
Comes soon enough.
I'll be gone for tomorrow...
Let's spend the night... together.
Goodbye to my memories...
So long my past.
Only me and my suitcase...
God, please! Bless me!
Cause I'm leaving...
Just don't know when
Hope I find the way!

Help me, help me, help me, help me
Catch my life!
Take me, take me, take me
To the other side!
Ready, steady, go!
I'm running!
It's unbelievable...
I'm going home!
I'm going home,
I'm going home!...

Step by step
I'm rolling...

Step by step
I'm heading up...
(Step by step
I'm going...
Step by step
I'm having enough)
Step by step...
So catch me if you can!

No more penalties...
No more truck stops...
No more promises...
Cause I'm going home, going home!
I'm so sure!

Help me, help me, help me, help me
Catch my life.
Take me, take me, take me
To the other side.
Ready, steady, go (ready steady go)
(I'm running)
It's unbelievable... (unbelievable)
I'm going home!
I'm going home!

No more penalties...
No more truck stops...
No more promises...
Cause I'm going home!
I'm going home!

No more penalties...
No more truck stops...
No more promises...
Cause I'm going home!
I'm going home!

Step by step...
I'm going home!
