It's ticking in my head  
When you try to explain what love is  
It's getting on my nerves  
When you make a lame excuse

Every single minute with you  
Feels like hours  
Still, I just can't seem to leave

I know you for sure

Refrain:  
Hysteria - is rising in my veins  
Hysteria - you're making me insane  
I'm serious  
I'll shut your mouth for good

It's ticking in my head  
When you put your "I know better" face on  
I don't give a damn  
If you hide behind a smile

Can't believe you did it  
And still your head is higher  
I don't wanna know what's going on  
When you sleep

Going down I'm waiting for tomorrow  
Hardest surface digging under  
Should I be really waiting for tomorrow  
No more reason to go on
